Experience

Lead NC Operator 2016 - today
A.W. Chesterton

- Setup and operation of CNC lathes
 - Programming support
 - Participated in kaizen efforts with QC and Engineering teams.
 - Designed new tooling for seal production
-

CNC Operator 2011 - 2016
M & K Engineering

- Programming, setup, operation, maintenance of CNC turning centers. Twin turret, twin spindle, live tooling.
 - Use of specialized precision gauges and QC equipment: Sunnen gauges, automatic CMM.
-

CNC Operator 2008 - 2011
United Electric Controls

- Setup & operation of CNC lathes and mills
- Received thorough training on lean manufacturing philosophy
- Participated in several 5S and kaizen projects

Skills

- CNC operation & setup
- NC Programming
- CAM: Fusion, EdgeCAM
- Programming automation (Python, NC macros)
- QC: calipers, micrometers, dial indicators, CMM, etc.

Education & Training

- Diploma from Somerville High School, 2005
- Certificate in manual machining and shop practice from Shawsheen Valley Technical High School, 2014
- Certificate in SolidWorks from Shawsheen Valley Technical High School, 2014
- Certificate in GD & T, Mass MEP, 2016
- Certificate in Lean Manufacturing Principles, Mass MEP, 2016
